Health and Safety document for transport of walkers ref Covid 19

1. The walking element should not be a problem as it is outdoors so the virus is limited. Groups a maximum of 14 people keeping social distancing unless you walk as a family group i.e. couple. We will be under the government guide lines .
2. The transport will be limited to carrying a maximum of 14 people on 2 minibuses unless a couple i.e. family come together and we may be able to take 15 or 16.
3. Groups limited to 14 people. Married/partners could sit next to each other as one family so therefore extra number as explained in no. 2.
4. Travellers have to notify leader if feeling unwell in any kind before embarking on the transport. All travellers will have to agree to have temperatures taken via a no touch infra red digital thermometer before boarding the minibus.
5. All travellers to have their own face covering whilst travelling on the minibus, the driver will wear own face covering with no passenger sitting next to them.
6. Hand sanitizer in each van to be used before and after walks.
7. After each journey all surfaces wiped down in vehicles.
8. Van equipment added, Hand held thermal infrared temperature gauge, disposable gloves, wipes, and hand sanitizer.

These numbers all depend on the Wales Government guidelines on how many people can walk as a group. We may have to adjust them as and when.

Looking after you-EVERY STEP OF THE WAY
